

# HAPPY NEW YEAR!

MAY 2011 BRING YOU AND YOUR LOVED ONES PEACE, PROSPERITY & HAPPINESS!

*Here is a brief recap of the Stewart Family 2010:*

**Eric, 26**, is living in Tempe; working full time at Trader Joe's and has a part time job working with an architecture firm. He loves to rock climb, workout at Crossfit Scottsdale and always seems to have a positive attitude on life.

**Ian, 24**, is living in San Louis Obispo and is working full time doing computer programming for a subsidiary of Boeing. He loves the outdoor life, family & friends and has a new pet – Penelope the potbelly pig.

**Meghan, 21**, graduated from ASU in December and will soon be moving to Florida. Meghan has a love for rock climbing, plans on studying for the MCAT's and moving ahead towards her goal of becoming a doctor.

**Kenny, 19**, lives in Tempe with his brother Eric. He is also working at Trader Joe's and spends much of his time on his passion of music writing and performance.

Kellen, 15, is our tallest child at 6'2" (and growing) and is a sophomore at Pinnacle High School. He loves to spend time with his friends, plays bass in the church youth band and is improving his skills in tennis.

Chris and Patty both celebrated 50 years of life on earth during 2010. Patty is working exceptionally hard for her real estate clients, playing tennis when she can and keeps in shape working out at Crossfit Scottsdale. Chris has had a busy year helping Mayo incorporate their Cerner electronic medical records software and surfing whenever possible. He completed the tenth volume of his Cannonball Adderley transcription books this year. Look for more music from Chris in 2011!

We were blessed with a year full of special times with friends and family.

**We look forward to what 2011 brings!**

*We wish many blessings for you and your family in 2011!*
